PUSHPUSH GO

WhatsApp Channels by PushPushGo

Your clients use WhatsApp, and you should too.

WhatsApp is the most popular messenger app globally. New tools allow you to harness this power and penetration to reach your users on their devices and build a new communication channel.

WhatsApp channels are the future.

✅ **Wide reach and easy access** that's not limited by browser policies, algorithms, or any ad blockers.

✅ **Privacy focus** - neither the admin's nor the subscriber's phone numbers or personal information are revealed to each other.

✅ **Rich media support** - use text, images, links, video, and more. Attract and convert through a wide range of content options.

✅ **High engagement:** about 3 billion people use WhatsApp. 89% of them open the application daily. Utilize its powers.

Add WhatsApp to your PushPushGo toolkit.

- Easy preparation and configuration
- Turn your web push into a WhatsApp message
- No need to configure API or add your phone number
- Segmentation options to make the channel more personalized
- Comprehensive analytics

Make the most of your WhatsApp channel.

- Advertise time-sensitive offers
- Display alerts and urgent information
- Bring visitors' attention to the latest updates
- Promote loyalty programs, newsletters, etc.

Getting started.
